

## **EPA Statement:**

On November 2, 2015, EPA issued to Volkswagen AG, Audi AG, Porsche AG, Volkswagen Group of America, Inc., and Porsche Cars North America, a Notice of Violation (NOV) for certain 2014, 2015, and 2016 vehicles with 3.0 liter diesel engines and alleged that these vehicles included defeat devices.

During a meeting yesterday, VW and Audi officials told EPA that the issues EPA identified in the November 2nd NOV extend to all 3.0 liter diesel engines from model years 2009 through 2016. EPA and CARB will continue to investigate and will take all appropriate action.
